OUR APPROACH

Vensys provides a full spectrum of value-add Oracle Consultancy Services spanning all industry sectors throughout APAC. We've earned our reputation for consistently delivering best-of-breed services, tailoring our Consultancy Services for specific business needs. Our services cover the entire Oracle product stack: Database, Technology, Middleware and Applications.

CONSULTING SERVICES

Vensys experts bring many years of industry background, unique skill sets and a deep knowledge of Oracle. They discuss various options for the use of Oracle by taking into account the environment, the business processes, the people, the objectives, and future plans. Whether it is functional or technical in nature, a business process related topic, or change management that is required, talk to us about your company's unique consulting needs.

FIXED PRICE PROJECT DELIVERY

We deliver successful projects on a fixed price fixed term basis within time frame and budgets to fit your circumstances and meet your needs.

MANAGED SERVICES

We provide 24 / 7 managed services (functional, technical & DBA support) for Oracle Applications, Middleware and Database across multiple instances & time zones in a combination of onsite-offsite mode.
